Description

Mercury Diesel Inline 4.2 - Mercury Diesel Inline common rail or electronic injection fuel systems provide increased power-to-weight ratios, cleaner starts and less noise for a superior boating experience. The Inline range of engines are built lightweight, compact and provide increased power for impressive acceleration, throttle response and quicker planing times. Inline engines are compatible with SmartCraft electronics, SeaCore corrosion protection, Axius joystick control systems and Mercury's effortless Digital Throttle & Shift systems. Engine Overview

- Expect superior performance and quick response from this compact, robust design
- Enhanced fuel economy delivered by the full-authority electronic engine control
- Quiet, smooth performance and enhanced sociability produced from the proven High-Pressure Common-Rail fuel system
- Maximise vessel performance and access comprehensive vessel diagnostic information via SmartCraft® electronics
